## Collaborative “desk”

- Mobility is the name of the game...flexible and adaptable
- Accommodates any teaching style
- Designed to engage and move
- Clear sight lines to the instructor at all times improves interaction

# Example Classroom

# Example Computer Lab

# Example Science Lab

# Example Media Center & Furniture

# Example Band Room

# Cafeteria with Multiple Serving Lines

# Example Gymnasium

# Orange County Public Schools

# Orange County Public Schools

- On-site stormwater retention and treatment
- Drought tolerant, Florida native/naturalized plants
- Low flow water fixtures utilized
- Energy simulation used to design HVAC equipment
- Energy savings is 27% better than reference base bldg
- Light colored roof - reduce heat island effect
- Refrigerant is non-ozone depleting
- CO2 Monitoring
- Variable air volume distribution + variable speed drives
- Energy efficient motors on fans and pumps
- High performance glazing – energy savings
- Daylighting potential maximized by wings
- Energy Efficient Lighting
- Low VOC paint
- Recycled Content Materials
- Locally manufactured materials

# Proposed Schedule

- Design January 2015- October 2015
- Bid/Permit November 2015- December 2015
- Construction January 2016 -June 2017
- School Opens August 2017

# QUESTIONS?
