

Your Vote Made A Big Difference

In November 2010, Orange County voters approved a 1 mill property tax increase for four years to preserve academic programs, retain highly qualified teachers, and protect arts, athletics and student activities.

Thanks to your support, the students of Orange County are much better off than they would have been. You will see below that while regular state funding has increased slightly the last three years, it still falls short when compared to inflation. However, thanks to the additional 1 mill, we have been able to maintain a high level of service.

Budgeted funding per student

Here's how your 1 mill was spent in 2013-14:

Preserve academic programs and retain highly qualified teachers:	\$42,539,176
Protect arts (music, art, drama):	\$35,659,999
Protect athletics:	\$ 5,369,456
Protect student activities:	\$ 2,413,262
Total:	\$85,981,893

Thanks again
for your continued support.
