

Your Vote Made A Big Difference

In November 2010, Orange County voters **approved a 1 mill property tax increase for four years** to preserve academic programs, retain highly qualified teachers, and protect arts, athletics and student activities.

Thanks to your support, the students of Orange County are much better off than they would have been. You will see below that while regular state funding has increased slightly the last three years, it still falls short when compared to inflation. However, thanks to the additional 1 mill, we have been able to maintain a high level of service.

Budgeted funding per student

Here's how your 1 mill was spent in 2014-15:

Preserve academic programs and retain highly qualified teachers:	\$45,974,996
Protect arts (music, art, drama):	\$39,162,427
Protect athletics:	\$ 5,437,104
Protect student activities:	\$ 2,377,504

Total: \$92,952,031

Thanks again
for your continued support.
