To the Members of the School Board of Orange County
and the Citizens of Orange County, Florida:

State law requires that all school districts publish within nine months of the close of each fiscal year a complete set of financial statements presented in conformity with accounting principles generally accepted in the United States (GAAP) and audited in accordance with generally accepted auditing standards (GAAS) by an independent certified public accountant. Pursuant to that requirement, we hereby issue the annual comprehensive financial report (ACFR) of Orange County Public Schools (the District) for the fiscal year ended June 30, 2022.

This report consists of management's representations concerning the finances of the District. Consequently, management assumes full responsibility for the completeness and reliability of all the information presented in this report. To provide a reasonable basis for making these representations, management of the District has established a comprehensive internal control framework that is designed both to protect the government's assets from losses, theft, or misuse and to compile sufficient reliable information for the preparation of the District's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the District's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The District's financial statements have been audited by Cherry Bekaert LLP, a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the basic financial statements of Orange County Public Schools for the fiscal year ended June 30, 2022, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering unmodified opinions that Orange County Public Schools' basic financial statements for the fiscal year ended June 30, 2022, are fairly presented in conformity with GAAP. The report of independent auditor is presented as the first component of the financial section of this report.

The independent audit of the financial statements of the District was part of a broader, federally mandated "Single Audit" designed to meet the special needs of federal grantor agencies. The District is required to undergo an annual Single Audit in conformity with the provisions of the Single Audit Act of 1996 and the United States Office of Management and Title 2 U.S. *Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). The standards governing Single Audit engagements require an independent auditor to report not only on the fair presentation of the financial statements, but also on the audited government's internal controls and legal requirements involving the administration of federal awards. Information related to this Single Audit, including the schedule of expenditures of federal awards, findings and questioned costs, summary of prior audit findings, and the report of independent auditor on compliance with applicable requirements, are included in a separate report issued by the Florida Auditor General. The report of independent auditor on the system of internal control is included in the other reports section.

This report includes all funds of the District, The School Board of Orange County Employee Benefits Trust (Trust), the Orange County School Board Leasing Corporation, Inc. (Leasing Corporation), the Foundation for Orange County

Public Schools, Inc. (Foundation) and charter schools, which comprise the reporting entity. The Trust administers the District's employee group health and life insurance program. The Leasing Corporation was formed by the School Board to be the lessor in connection with financing the acquisition and/or construction of certain educational facilities. The Foundation is a separate not-for-profit corporation organized and operated as a direct-support organization. Charter schools are public schools operating under performance contracts with the School Board. The Foundation's purpose is exclusively educational and charitable for the constituents of Orange County. The Foundation and applicable charter schools are included as discretely presented component units.

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The District's MD&A can be found immediately following the report of the independent auditor.

Profile of the Government

The District and its governing board were created pursuant to Section 4, Article IX of the Constitution of the State of Florida. The District is an independent taxing and reporting entity managed, controlled, operated, administered, and supervised by the district school officials in accordance with Chapter 1001, Florida Statutes. The Board consists of eight members. The school board chairman is elected at large by the citizens of Orange County. Should a tie vote exist on any particular issue, the chairman's side prevails. The seven board members are elected in districts by the public. All board members serve four-year staggered terms. The superintendent is selected by the Board and serves as chief executive officer of the school system. The Board is responsible for setting policy, while the superintendent is responsible for administration and management of the schools. The superintendent is also specifically delegated the responsibility of maintaining a uniform system of records and accounts in the District by Section 1010.01, Florida Statutes, as prescribed by the State Board of Education.

The geographic boundaries of the District are those of Orange County. The District is in the center of the State of Florida and encompasses an area of about 1,000 square miles. During the 2021-22 fiscal year, Orange County Public Schools continued to be the ninth-largest school district in the nation and the fourth-largest in Florida. Also, during fiscal year 2021-22, the District operated 205 schools, including 127 elementary schools, 9 K-8 schools, 39 middle schools, 22 high schools, and 8 exceptional schools. Including alternative schools, the District had a total of 193,503 full-time equivalent students (FTE). To better serve schools and students, the District is divided into five geographic learning communities. In addition, the District sponsored 41 charter schools with a total of 16,159 FTE. The projected full-time equivalent enrollment for fiscal year 2022-23 is 214,554.

The District also provides Career and Technical education within Orange County. Orange Technical College is one of Florida's leading providers of comprehensive secondary and post-secondary technical education, serving more than 55,941 students each year. Instruction takes place throughout five technical college campuses, 22 high schools, 39 middle schools, and various community and business sites located throughout Orange County. Orange Technical College offers career certificate training programs that range in length. Graduates can earn future college credits in most programs, as well as valuable work-related experience for immediate employment in various technical fields.

The District maintains budgetary controls, the objective of which is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the Board. The annual budget serves as the foundation for the District's financial planning and control. The District is required to advertise, hold a public hearing and adopt a tentative budget no later than 34 days after certification of value by the property appraiser which occurs around July 1 of each year. The final millage and budget must be adopted within 65 to 80 days of certification. The appropriated budget is prepared by fund, function (e.g., instruction), and object (e.g., salaries). Each school as well as department has their own budget. The school's budget is based on the number and classification of the students attending that school and each principal plays an integral role in developing their school's budget. Budget-to-actual comparisons are provided in the report, by function, for each individual governmental fund for which an appropriated annual budget has been adopted. For the general fund, this comparison is presented as part of the

basic financial statements for the governmental funds. For all other governmental funds with appropriated annual budgets, these comparisons are presented in the combining and individual fund sections of this report.

Economic Condition and Outlook

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which Orange County Public Schools operates.

Local Economy. Orlando is the county seat and the principal city in Orange County. The District is the 3rd largest employer in the county with approximately 24,576 employees. Along with Walt Disney World Resort, other major employers include Adventist Health System, Universal Orlando Resort (Comcast), Orlando Health, and Publix Super Markets.

The population of Orange County is estimated at 1,422,746. Orange County is the fifth most populous county in Florida. The median age in Orange County is 35.3 years of age. The unemployment rate in the Orlando Metropolitan area was 3.2 percent and 2.8 percent in the State of Florida.

Orange County is home to one of the largest universities in the nation, with more than 70,406 students as of Fall 2021 and currently has the second-largest student body of any public university in the United States. The University of Central Florida (UCF) in the eastern part of the county attracts many of the high-tech employers to the area. UCF, an academic, partnership and research leader in numerous fields such as optics and lasers, modeling and simulation, engineering and computer science, business administration, education, hospitality management, healthcare and video game design. UCF has also been ranked as a best-value university by *Kiplinger*, as well as one of the nation's most affordable colleges by *USA Today* and *The Princeton Review*.

Our economy benefits from a globally recognized tourism industry. Major tourist attractions in Orange County include Walt Disney World, EPCOT, Disney-MGM Studios, Disney Animal Kingdom, Sea World of Orlando and Universal Studios.

Orange County has the largest modeling, simulation, and training cluster in the country, serving aviation and aerospace, healthcare and medical technologies, emergency services, entertainment, homeland security, information technology, education, microeconomics, optics, and phonics and transportation. From established industry sectors such as travel and tourism, to new and emerging industries sectors such as life science, clean technology, and digital media, Orange County has a well-balanced economic base.

Creative Village, a \$1.5 billion development in the heart of downtown Orlando, has transformed a 68-acre parcel into a mixed-use, transit oriented, urban infill neighborhood. The Creative Village concept focuses on developing a true "live, work, learn, and play" urban innovation district. A key component of the village is to bring a mix of affordable, attainable and market-rate housing to the community. Creative Village is currently in phase one of a three-phase development plan with the Master Development Agreement running through 2031. Future phases include additional residential housing, office space and a hotel.

The Lake Nona area in Orlando is a rapidly growing master-planned community of thoughtfully designed neighborhoods, top-rated education facilities, business and research clusters, retail and entertainment centers, and diverse workspaces.

The core of the Orlando region's infrastructure is strong roadways. The region's main thoroughfare, Interstate 4, underwent a \$2.3 billion investment for a 21-mile makeover that connected the Gulf of Mexico to the Atlantic Ocean. Express toll lanes were added to manage traffic congestion and provide choices for travelers. The project was completed and opened to the public in the summer of 2022.

Long-term Financial Planning

The District follows procedures required by Florida Statutes and the SBE rules in establishing and adopting annual budgets for each of the governmental fund types. Budgets are prepared using the same modified accrual basis as is used to account for governmental funds. Appropriations are controlled at the object level (e.g., salaries, benefits, and purchased services) within each function activity (e.g., instruction, student personnel services, and school administration) and may be amended by resolution at any Board meeting prior to the due date for the annual financial report. During the initial planning for the budget, the District annually budgets a contingency fund of not less than three percent (3%) of recurring general fund revenues to be used only for fiscal emergencies. This contingency fund should not be utilized without Board approval and should be classified as part of the unassigned fund balance. On June 30, 2022, unassigned fund balance in the General Fund totaled \$132,604,286 or 7.4 percent of General Fund revenues.

The voters of Orange County made a momentous decision when they approved the half-cent sales tax on September 10, 2002, subsequently reapproved in 2014 and is funded through 2025. With the additional revenue, the sales tax is generating, the District is able to renovate or replace aging schools, build new schools to accommodate growth, pay for site acquisitions, provide new digital technology in classrooms, and capital renewal. From January 2003 through June 2022, sales tax collections totaled \$4.7 billion.

On August 23, 2022, the voters overwhelmingly approved (82.1%) the continuation of the one-mill property tax that preserves academic programs, compensates teachers and support staff, protects arts, athletics and student activities.

The District, in cooperation with Orange County, continues to work with developers desiring to build residential communities within the county to ensure sufficient school capacity. The student growth from these new communities affects existing and future school sites in the District. These inter-local agreements include the prepayment of school impact fees, developer contributions per unit, site development, and site acquisition.

Major Initiatives

COVID-19 Response. The District constantly evaluates and finds ways to improve school safety in order to provide a safe learning and working environment for students, employees, and visitors. In addition to the continuous efforts to offer students various learning models, the District hired additional temporary custodial staff to clean and disinfect schools and facilities; created a Medical Advisory committee to provide guidance and field questions from parents, students, staff, and community members; created a COVID-19 health and safety procedures manual that was updated as the Centers for Disease Control and Prevention adjusted recommended safety measures; made adjustments to accommodate students on buses, including keeping to two students per seat, conducting additional cleaning and disinfection procedures between runs, and maintain improved ventilation by opening roof hatches and back windows to circulate air; created the COVID-19 dashboard to track cases among students and staff; and continuously shipped personal protective equipment and supplies to schools and administrative sites.

Accomplishments

The school district is committed to providing all students the education and skills necessary to be successful in college, career and life. The number of “A” schools in Orange County Public Schools improved, with 59 schools earning an “A” in 2021-22 compared to 39 that would have received an “A” in 2020-21, if school grades had been assigned to all schools during the COVID-19 pandemic. Overall, the District earned a “B” grade.

The District’s one-to-one digital learning program continued to provide services to students. In light of the pandemic, Orange County Public Schools accelerated the effort in order to provide devices to every student with more than 198,032 devices distributed during the 2021-22 school year.

Thirty-five percent of Orange County Public School's teachers have advanced degrees; 33 percent have master's degrees; and 2 percent have specialist and doctorate degrees.

The District's graduation rate in 2020-21 was 98.4 percent among traditional schools. Last year, 130 graduating seniors were accepted into top-10 ranked universities, liberal arts, or U.S. service academies ranked by *US News and World Report*. Thirty seniors from 11 high schools were chosen as winners in the National Merit Scholarship Program. Twenty-two others were semifinalists from nine high schools.

Magnet Schools of America recognized nine OCPS magnet programs for demonstrating a high commitment to academic standards, curriculum innovation, diversity efforts, specialized teaching staff, and parent and community involvement.

The District's Moody's rating for its certificates of participation remained the same "Aa2" rating. The Fitch rating remained the same "AA" rating. S&P remained the same "AA" rating for its certificates of participation.

Awards and Acknowledgements

The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Orange County Public Schools for its Annual Comprehensive Financial Report (ACFR) for the fiscal year ended June 30, 2021. In order to be awarded a Certificate of Achievement, the government published an easily readable and efficiently organized ACFR. This report satisfied both GAAP and applicable legal requirements.

The District also was awarded the Certificate of Excellence in Financial Reporting Award for excellence in the preparation and issuance of the June 30, 2021, school system Annual Comprehensive Financial Report from the Association of School Business Officials (ASBO) International. This award represents a significant achievement for Orange County Public Schools and reflects a commitment to the highest standards of school system financial reporting.

This is the 21st year that the Certificate of Achievement and Certificate of Excellence has been awarded to the District's Annual Comprehensive Financial Report. These certificates are valid for a period of one year. We believe that our current Annual Comprehensive Financial Report continues to meet the certificates' program requirements and we are submitting it to the GFOA and ASBO to determine its eligibility for another certificate.

The preparation of the Comprehensive Annual Financial Report was made possible by the efficient and dedicated service of the entire staff of the Fiscal Services division and the audit staff of Cherry Bekaert LLP.

In closing, we would like to thank the members of the District for their leadership and support in planning and conducting the financial operations of the District.

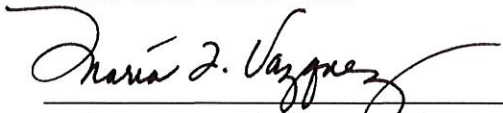

Respectfully submitted,

Catherine Nguyen Schuessler, CPA Sr.

Report of Independent Auditor

The Honorable Members of the
School Board of Orange County Public Schools
Orlando, Florida

Report on the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of Orange County Public Schools, Florida (the "District"), as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, based on our audit and the reports of the other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the District, as of June 30, 2022, and the respective changes in financial position, and, where applicable, cash flows thereof, and the respective budgetary comparison for the General Fund and the Federal Education Stabilization Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

We did not audit the financial statements of the District's School Internal Accounts, nor the fiduciary funds, which represent 3.69 percent, 4.58 percent, and 6.07 percent of assets, fund balance and revenues of the aggregate remaining fund information, nor did we audit the financial statements of the discretely presented component units. Those statements were audited by other auditors whose reports have been furnished to us, and our opinions, insofar as they relate to the amounts included for the discretely presented component units and the portion of aggregate remaining fund information that represents the District's School Internal Accounts and fiduciary funds, are based solely on the reports of the other auditors.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the District, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibility of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance, but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the required supplementary information as listed in the table of contents be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District’s basic financial statements. The other supplementary information, as listed in the table of contents, is presented for additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America by us and other auditors. In our opinion, based on our audit and the reports of the other auditors, the other supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual comprehensive financial report. The other information comprises the introductory and statistical sections, but does not include the basic financial statements and our auditor’s report thereon. Our opinions on the basic financial statements do not cover the other information and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 9, 2022, on our consideration of the District’s internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District’s internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District’s internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS
June 30, 2022**

As management of Orange County Public Schools (the "District"), we offer readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the fiscal year ended June 30, 2022.

Financial Highlights

- The assets and deferred outflows of the District exceeded its liabilities and deferred inflows at the close of the most recent fiscal year by \$5,379,674,326 (*net position*).
- The District's total net position increased by \$548,624,997. This increase is primarily attributable to the ongoing investment of the District in new schools and the renovation of existing schools supported by sales tax proceeds and other capital outlay revenues.
- Total revenues of \$3,077,292,844 were comprised of general revenues in the amount of \$2,809,946,988, or 91.3 percent, and program specific revenues from charges for services, grants and contributions in the amount of \$267,345,856, or 8.7 percent.
- For the year ended June 30, 2022, the District had \$2,528,667,847 in expenses related to governmental activities; \$267,345,856 of which were offset by program specific charges or services, grants and other sources. General revenues (primarily taxes and state funding programs) of \$2,809,946,988 were sufficient to provide for the District's programs.
- As of the close of the current fiscal year, the District's governmental funds reported combined ending fund balances of \$2,521,779,568, an increase of \$342,316,808 in comparison with the prior year. Approximately 5.3 percent of this total amount, \$132,604,286, is available for spending at the District's discretion for the purposes defined for each governmental fund (*unassigned fund balance*). The remaining balance of \$2,389,175,282 has been designated as Nonspendable, Restricted, Committed or Assigned.
- At the end of the current fiscal year, unassigned fund balance for the general fund was \$132,604,286, or 7.3 percent of total general fund expenditures.
- The District's total long-term debt for bonds and COP's decreased by \$44,447,659, or 4.1 percent, during the current fiscal year, primarily due to principal payments.

Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements.

Government-wide financial statements. The *government-wide financial statements* (or district-wide financial statements) are designed to provide a broad overview of the District's finances, in a manner similar to a private-sector business.

The *statement of net position* presents information on all of the District's assets, deferred outflows, liabilities, and deferred inflows, with the difference between the two reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

**ORANGE COUNTY PUBLIC SCHOOLS
MANAGEMENT'S DISCUSSION AND ANALYSIS
June 30, 2022**

The *statement of activities* provides information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in the future fiscal periods (e.g., uncollected taxes, other post-employment benefits, and earned but unused vacation and sick leave).

All of the District's activities and services are reported in the *government-wide financial statements*, including instruction, pupil support services, instructional support services, administrative support services, facility maintenance, transportation, and food services. Property taxes, state assistance, and interest and investment earnings finance most of these activities. Additionally, all capital and debt financing activities are reported here. The District currently does not report any business-type activities, which would include functions that are intended to recover all or a significant portion of their costs through user fees and charges.

The government-wide financial statements include not only the District itself (known as the *primary government*), but also the School Board of Orange County Employee Benefits Trust and the Orange County School Board Leasing Corporation. The School Board of Orange County Employee Benefits Trust (Trust) and the Orange County School Board Leasing Corporation (Corporation), although also legally separate, were formed to administer the District's group health and life insurance program and facilitate financing for the acquisition of facilities and equipment, respectively. Due to the substantive economic relationships between the District and the Trust and Corporation, their financial activities have been included as an integral part of the primary government.

Fund financial statements. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into two categories: governmental funds and proprietary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, and on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the District's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

**ORANGE COUNTY PUBLIC SCHOOLS
MANAGEMENT'S DISCUSSION AND ANALYSIS
June 30, 2022**

The District maintains 11 individual governmental funds. Information is presented separately in the governmental balance sheets and in the governmental statements of revenues, expenditures and changes in fund balances for the General Fund, Capital Projects – Capital Improvement Tax Fund, Capital Projects – Other Capital Projects Fund, and Special Revenue – Education Stabilization Fund which are considered to be major funds. Data from the other 7 governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of *combining statements* elsewhere in this report.

The District adopts an annual appropriated budget for its general fund. A budgetary comparison statement has been provided for the general fund to demonstrate compliance with this budget.

Proprietary funds. The District maintains one type of proprietary fund – internal service funds. *Internal service funds* are an accounting device used to accumulate and allocate costs internally among the District's various functions. The District uses internal service funds to account for its self-insurance programs, employee benefits trust and printing services. Because these services benefit the District's governmental functions, they have been included within *governmental activities* in the government-wide financial statements.

The three internal service funds are combined into a single, aggregated presentation in the proprietary fund financial statements. Individual fund data for the internal service funds are provided in the form of *combining statements* elsewhere in this report.

Notes to the financial statements. The notes provide additional information that is essential to fully understanding the data provided in the government-wide and fund financial statements.

Other information. The combining statements referred to earlier in connection with nonmajor governmental funds and internal service funds are presented immediately following the notes to the financial statements.

Government-Wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the District, assets and deferred outflows exceeded liabilities and deferred inflows by \$5,379,388,708 at the close of the most recent fiscal year.

The largest portion of the District's net position (69.9 percent) reflects its investment in existing capital assets (e.g., land, buildings, machinery, and equipment), net of accumulated depreciation and less any related debt used to acquire those assets that is still outstanding. The District uses these capital assets to provide educational and related services to its students; consequently, these assets are not available for future spending. Although the District's investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. A portion of the District's net position (39.6 percent) reflects its restricted net position for capital projects, debt service, food service and other purposes. The District will use these resources in a continuing effort to build and refurbish sufficient classroom space for the growing student population in Orange County, Florida.

The balance of (\$506,399,025) is shown as unrestricted (deficit) net position. The deficit balance in unrestricted net position is primarily due to reporting of the District's proportionate share of the State's pension liability.

MANAGEMENT'S DISCUSSION AND ANALYSIS
June 30, 2022**

Overall, the District's net position increased by \$548,624,997 during the current fiscal year, primarily due to building of capital fund resources for future school renovations and construction projects and expansion of the digital curriculum initiative.

Financial Analysis of the Government's Funds

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds. The focus of the District's *governmental funds* is to provide information on near-term inflows, outflows and balances of spendable resources. Such information is useful in assessing the District's financing requirements.

As of the end of the current fiscal year, the District's governmental funds reported combined ending fund balances of \$2,521,779,568, an increase of \$342,316,808 in comparison with the prior year. Approximately 5.3 percent of this total amount, \$132,604,286, constitutes unassigned fund balance. The remainder of fund balance is nonspendable of \$2,779,314, restricted of \$2,124,368,964 or assigned of \$262,027,004, which are not available for new spending.

The *General Fund* is the chief operating fund of the District. At the end of the current fiscal year, unassigned fund balance of the General Fund was \$132,604,286, while total fund balance was \$424,956,930. As a measure of the General Fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total expenditures. Unassigned fund balance represents 7.3 percent of total General Fund expenditures, while total fund balance represents 23.4 percent of that same amount.

The fund balance of the District's General Fund decreased by \$25,803,170 during the current fiscal year. The key factor in this decrease was due to a one-time \$3,500 bonus paid to all employees.

The *Federal Education Stabilization Fund*, which is used to account for funds from the State or Federal Government which are restricted for Federal programs. The fund had revenues and expenditures of \$260,760,048. Funding was mainly used for instruction and student support services. Grant revenues are not recognized until expenditures are incurred; this fund does not accumulate a fund balance.

The *Nonvoted Capital Improvement Tax Fund*, which is used to account for capital project activity funded from the nonvoted capital improvement tax, has a total fund balance of \$366,877,602, all of which is restricted for specific capital projects. The net increase in fund balance during the current year in the local capital improvement tax fund was \$38,571,020 and resulted primarily from funds being reserved for future planned expenditures.

The *Other Capital Projects Fund*, which is used to account for capital project activity funded sources such as Certificates of Participation, Sales Tax and Impact Fees, has a total fund balance of \$1,450,725,789, all of which is restricted for specific capital projects. The net increase in fund balance during the current year in the other capital projects fund was \$286,984,672 and resulted primarily from funds being reserved for specific capital projects.

General Fund Budgetary Highlights

There was a change in budgeted property revenue between the original General Fund budget of \$877,979,870 and the final General Fund budget of \$891,592,370. There was no change in the General Fund budgeted appropriations.

General Fund revenues were less than budgeted revenues by approximately \$34.0 million. The State revenue was less by approximately \$38.0 million. General Fund actual expenditures were less than the budgeted appropriations by approximately \$117.8 million, due to the delay of planned expenditures for several major initiatives.

Capital Asset and Debt Administration

Capital assets. The District's investment in capital assets as of June 30, 2022, amounts to \$4,754,181,281 (net of accumulated depreciation). This investment in capital assets includes land, construction in progress, improvements other than buildings, buildings and fixed equipment, furniture, fixtures and equipment, motor vehicles, audio-visual materials, and computer software. The total increase in the District's investment in capital assets (net of accumulated depreciation) for the current fiscal year was \$25,396,543 (0.5 percent).

Major capital asset events during the current fiscal year included the following:

- Rebuilding of Acceleration Academy East
- Rebuilding of Acceleration Academy West
- Rebuilding of Boone High School
- Rebuilding of Colonial High School 9th Grade Center
- Rebuilding of Discovery Middle School
- Construction of Horizon West High School

Economic Factors and New Year's Budgets and Rates

The following factors were considered in preparing the District's budget for the 2023 fiscal year:

- The unemployment rate in June 2022 for the District (Orlando, Florida) was 3.2 percent, a decrease of 2.8 percent from the prior year rate of 6.0 percent due to the continued economic recovery from the COVID-19 pandemic. The State's average unemployment rate, as of June 2022, was 2.8 percent. Florida's unemployment rate has decreased 2.2 percent since last year while the nation's rate decreased 2.3 percent during the same time period, from 5.9 to 3.6 percent.
- OCPS final enrollment was 209,662, an increase of approximately 9,167 students. The District is forecasting growth of approximately 4,892 students in FY2022-2023.
- The Orange County School Board pays \$928.86 per month for each full-time benefited employee. For the 2021-2022 plan year, that equates to \$9,289.
- The District will continue to provide devices to students for its one-to-one digital curriculum initiative and has budgeted funds to build infrastructure and provide devices for all students.
- Unassigned fund balance in the General Fund at June 30, 2022 was \$132,604,286. The District has assigned \$250,984,562. Of this amount, \$202,288,704 was assigned for Encumbrances and Budget Appropriations, which are included in the 2023 fiscal year budget. The remainder, \$48,695,858 for Other Postemployment Benefits (OPEB), is a long-term liability and as such is not included in the 2023 fiscal year budget.

Although current estimates indicate that no subsequent reductions will be required, the historical experience where adjustments were made causes some concern regarding the consistency of state funding for the current year. The District has therefore been proactive and set aside adequate reserves to deal with such a contingency should it materialize.

**ORANGE COUNTY PUBLIC SCHOOLS
RECONCILIATION OF THE GOVERNMENTAL FUNDS
STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES
TO THE GOVERNMENT-WIDE STATEMENT OF ACTIVITIES
For the Fiscal Year Ended June 30, 2022**

Net Change in Fund Balances - Governmental Funds \$ 342,316,808

Amounts reported for governmental activities in the statement of activities are different because:

Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount of capital outlays in excess of net loss on sale and depreciation expense in the current period.

Capital Outlay net of amount not capitalized	\$	197,470,518	
Net Loss on Sale		(3,980,495)	
Depreciation Expense		<u>(168,093,479)</u>	
			25,396,544

Proceeds of refunding debt are reported as other financing sources in the governmental funds, while payments to the escrow agent for advance-refunding of outstanding debt are shown as other financing uses. Government-wide statements are affected only to the extent these amounts differ. Other long-term debt proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net position. Repayment of long-term debt is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position. This is the net effect of these transactions.

Certificates of Participation	\$	(239,785,000)	
Principal Payments to Bond Escrow Agent		<u>244,024,684</u>	
			4,239,684

Long-term debt proceeds provide current financial resources to governmental funds, but issuing debt increase long-term liabilities in the statement of net position. Repayment of long-term debt is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position. This is the net effect of these transactions.

48,032,149

Deferred charges associated with long-term debt issued in a prior period are reported in the statement of activities, but are not a current financial resource and, therefore, are not reported in the governmental funds. This is the net decrease in deferred charges during the current period.

(6,927,367)

Premiums and discounts on debt issued are reported in the governmental funds in the year the debt is issued, but are deferred and amortized over the life of the debt in the statement of activities.

9,054,793

Interest on long-term debt is recognized in the governmental funds when due, but is recognized as interest accrues in the statement of activities.

1,926,804

In the governmental funds, revenues cannot be recognized until they are available to pay liabilities of the current period. In the statement of activities, revenue is recognized as soon as it is earned regardless of its availability. This is the effect of timing differences between the two methods of revenue recognition.

(386,483)

In the statement of activities, the cost of compensated absences is measured by the amounts earned during the year, while in the governmental funds, expenditures are recognized based on the amounts actually paid for compensated absences. This is the net amount of compensated absences earned in excess of the amount paid in the current period.

7,277,267

In the statement of activities, the cost of other postemployment benefits is measured by the change in the net OPEB obligation during the year, while in the governmental funds, expenditures are recognized based on the amounts actually paid for the OPEB costs. This is the amount paid in excess of the change in OPEB obligation in the current period.

915,172

In the statement of activities, the cost of pension benefits is measured by the increase in the net pension liability during the year, while in the governmental funds, expenditures are recognized based on the amounts actually paid for the pension expense. This is the amount of the change in net pension liability in excess of the amount paid in the current period.

Internal service funds are used by management to charge the cost of certain activities, such as insurance to individual funds. The net revenue of internal service funds is reported with governmental activities.

ORANGE COUNTY PUBLIC SCHOOLS
NOTES TO BASIC FINANCIAL STATEMENTS
June 30, 2022

1. Summary of Significant Accounting Policies

Reporting Entity

Orange County Public Schools (the "District") has direct responsibility for operation, control, and supervision of District schools and is considered a primary government for financial reporting. The District is considered part of the Florida system of public education.

The governing body of the District is the Orange County District School Board (the "Board") that is composed of eight elected members, seven board members elected by district and one Board Chairman elected at large. The appointed Superintendent of Schools (Superintendent) is the executive officer of the Board. Geographic boundaries of the District correspond with those of Orange County.

Pursuant to Section 1001.51(11)(d), Florida Statutes, the Superintendent is responsible for keeping records and accounts of all financial transactions in the manner prescribed by the Florida State Board of Education.

Criteria for determining if other entities are potential component units that should be reported within the District's basic financial statements are identified and described in the Governmental Accounting Standards Board's (GASB) *Codification of Governmental Accounting and Financial Reporting Standards*, Sections 2100 and 2600. The application of these criteria provides for identification of any legally separate entities for which the Board is financially accountable and other organizations that the nature and significance of their relationship with the Board are such that exclusion would cause the District's basic financial statements to be misleading or incomplete.

As required by accounting principles generally accepted in the United States (GAAP), these basic financial statements present the District (the primary government) and its component units. The component units discussed below are included in the District's reporting entity because of the significance of their operational or financial relationships with the District.

Blended Component Units - The District's employee group health and life insurance program, described in a subsequent note, is administered through the School Board of Orange County Employee Benefits Trust (Trust). Assets necessary to fund the program are transferred to the Trust; however, under the terms of the Trust Agreement, the School Board retains control of the assets. Due to the substantive economic relationship between the District and the Trust, the financial activities of the Trust are reported in the accompanying basic financial statements as an internal service fund.

The Orange County School Board Leasing Corporation (Leasing Corporation) was formed to facilitate financing for the acquisition of facilities and equipment as further discussed in a subsequent note. The Board of Directors of the Leasing Corporation are members of the Board who elect to serve as ex-officio Directors. Due to the substantive economic relationship between the District and the Leasing Corporation, the financial activities of the Leasing Corporation are included in the accompanying basic financial statements as part of debt service and capital projects funds. Separate financial statements for the Leasing Corporation are not published.

Discretely Presented Component Units - The component unit column in the government-wide financial statements includes the financial data of the District's other component units. The Foundation for Orange County Public Schools, Inc. (the Foundation) is a separate not-for-profit corporation organized and operated as a direct-support organization under Section 1001.453, Florida Statutes, to raise funds; receive, hold, invest and administer property and to make expenditures for the benefit of the District. Section 1001.453, Florida Statutes, requires the Foundation to be authorized and approved by the District. The stated mission of the Foundation is to identify, develop and focus community

resources to make a meaningful impact on the success of students and teachers of Orange County Public Schools. Because of the nature and significance of its relationship with the District, the Foundation is considered a component unit.

Charter schools included in the financial statements consist of the following for the year ended June 30, 2022: Access Charter School, Inc.; Sunshine High School – Central Orange County Campus, Inc. (d/b/a Aloma High School); Aspire Charter Academy; BridgePrep Academy of Orange County; Central Florida Leadership Academy Charter School; Sunshine High School - Orlando Campus, Inc. (d/b/a Chancery Charter High School); Sunshine High School – Greater Orlando Campus, Inc. (d/b/a Econ River Charter High School); Hope Charter School, Inc.; Innovations Middle Charter School; Innovation Montessori Ocoee High School, Inc.; Innovation Montessori Ocoee, Inc.; Lake Eola Charter School, Inc.; Legacy High School, Inc.; Legends Academy; Eagles’ Nest Community Charter Schools, Inc. (d/b/a Lucious and Emma Nixon Academy); Orange County Preparatory Academy; Orlando Science Elementary Charter School, Inc.; Orlando Science Middle/High Charter School, Inc.; The Passport Charter School, Inc.; Pinecrest Collegiate Academy; Pinecrest Creek Academy; Pinecrest Preparatory Charter School (Orlando Campus); Pinecrest Academy Avalon; Princeton House Charter School, Inc.; Prosperitas Leadership Academy, Inc.; Renaissance Charter School at Chickasaw Trail; Renaissance Charter School at Crown Point; Renaissance Charter School at Goldenrod; Renaissance Charter School at Hunter’s Creek; Sunshine High School – Orange County Campus, Inc. (d/b/a Sheeler Charter High School); Sunshine High School – Greater Orlando Campus, Inc. (d/b/a Sunshine Charter High School); United Cerebral Palsy (UCP) Bailes Charter School; United Cerebral Palsy (UCP) Downtown Charter School; UCP East Orange Charter School; UCP Pine Hills Charter School; UCP Transitional Learning Academy Charter School; UCP West Orange Charter School; and Workforce Advantage Academy Charter High School, Inc. (Charter Schools) are separate not-for-profit corporations organized pursuant to Chapter 617, Florida Statutes, the Florida Not For Profit Corporation Act, and Section 1002.33, Florida Statutes. These charter schools operate under charters approved by their sponsor, the Orange County District School Board.

In accordance with the Florida Department of Education (FDOE) requirements, the charter schools are included as component units of the District. According to the FLDOE, the charter schools are fiscally dependent on the District for their tax levy and the majority of their funding, which creates a financial burden to the District because the charter schools’ full-time equivalent (FTE) student enrollment is the basis for the District to provide funding to the charter schools. In addition, the charter schools are reported as component units because they are considered to be misleading to exclude.

The following charter schools are reported by other governmental entities and are therefore not included in the District’s basic financial statements in accordance with generally accepted accounting principles; Oakland Avenue Charter School, Cornerstone Charter Academy, and Cornerstone Charter High School. The charter schools are organized under the Town of Oakland (Oakland Avenue), and the City of Belle Isle (both Cornerstone Charter Schools).

The audits of the financial statements of the aforementioned charter schools and of the Foundation for the fiscal year ended June 30, 2022 were conducted by independent certified public accountants whose audit reports are filed in the District’s administrative office at 445 West Amelia Street, Orlando, Florida 32801.

Measurement Focus, Basis of Accounting and Financial Statement Presentation

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. The basis of accounting refers to when revenues and expenses/expenditures are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurement made, regardless of the measurement focus applied.

ORANGE COUNTY PUBLIC SCHOOLS
NOTES TO BASIC FINANCIAL STATEMENTS
June 30, 2022

Government-wide Financial Statements - The government-wide financial statements are prepared under the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash transaction takes place. Nonexchange transactions, in which the District gives or receives value without directly receiving or giving value in exchange, include property taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

The Statement of Net Position and the Statement of Activities present financial information about the District's governmental activities. These statements include the financial activities of the government in its entirety. Governmental activities, which generally are supported by taxes and inter-governmental revenues, are reported separately from business-type activities, which are generally supported by fees charged. The District currently does not have any business-type activities.

The Statement of Net Position includes all assets, deferred outflows, liabilities, and deferred inflows of the District. The Statement of Activities presents a comparison between the direct expenses and program revenues for each function or program of the District's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Depreciation expenses associated with the District's transportation and maintenance departments are allocated to the transportation and maintenance of plant functions, while remaining depreciation expenses are not readily associated with a particular function and are reported as unallocated.

Amounts reported as program revenues include 1) charges for services provided to students for tuition, fees, rental, material, supplies, or other services, 2) operating grants and contributions, and 3) capital grants and contributions. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the District.

The District eliminates from the Statement of Net Position and the Statement of Activities most interfund receivables and payables and transfers between funds as well as the transactions associated with its Internal Service Funds.

Fund Financial Statements - The Governmental Fund Financial Statements are prepared utilizing the current financial resource measurement focus and the modified accrual basis of accounting. Revenues are recognized in the accounting period in which they become susceptible to accrual, that is, both measurable and available. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Significant revenues "susceptible to accrual" include ad valorem taxes, reimbursable-type grants and interest on investments. The District considers revenues from ad valorem taxes as available if they are collected within 60 days after year-end. Expenditures are recorded when the fund liability is incurred, which exclude unmatured principal and interest on general long-term debt and accumulated sick and vacation pay, OPEB, claims and judgments and certain prepaid items, which are recognized when due/paid. In applying the "susceptible to accrual" concept to revenues from federal and state sources, the legal contractual requirements of the numerous individual programs are used as guidance. There are, however, essentially two types of revenues. In one type, monies must be expended for the specific purpose or project before the District will receive any amounts; therefore, revenues are recognized based upon the occurrence of the expenditure. In the other type, monies are virtually unrestricted as to purpose of expenditure and are usually revocable only for failure to comply with prescribed legal and contractual requirements. These resources are reflected as revenues at the time of receipt or

ORANGE COUNTY PUBLIC SCHOOLS
NOTES TO BASIC FINANCIAL STATEMENTS
June 30, 2022

earlier if the “susceptible to accrual” criteria are met. In all cases, monies received before the revenue recognition criteria have been met are reported as unearned revenue.

The Proprietary Fund Financial Statements are prepared under the economic resources measurement focus and the accrual basis of accounting.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund’s principal ongoing operations. The principal operating revenues of the District’s internal service funds are for self-insurance (property, casualty, liability, and worker’s compensation), employee benefits (health and prescription), and printing provided to other funds. Operating expenses for the internal service funds include salaries, employee benefits, purchased services, energy services, materials and supplies, claims expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

The fund statements provide information about the District’s funds. Separate statements for each fund category – governmental and proprietary – are presented. The emphasis of fund financial statements is on major funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as nonmajor funds. The District reports the following major funds:

General Fund - to account for all financial resources not required to be accounted for in another fund, and for certain revenues from the State that are legally restricted to be expended for specific current operating purposes. The General Fund is the District’s primary operating fund.

Special Revenue – Federal Education Stabilization Fund - to account for funds from the State or Federal Government which are restricted for Federal programs.

Capital Projects – Nonvoted Capital Improvement Section 1011.71(2), F.S. Fund – to account for the financial resources generated by Section 1011.71(2), Florida Statutes local capital improvement taxes (property taxes) and other local sources to be used for educational capital outlay needs, including new construction, renovation and remodeling projects and debt service payments.

Capital Projects - Other Capital Projects Fund - to account for the financial resources generated by certificates of participation, impact fees, lottery, sales tax and other local sources to be used for educational capital outlay needs, including new construction, renovation and remodeling projects and debt service payments.

Additionally, the District reports the following non-major fund types:

Special Revenue Funds - to account for the financial resources of the school food service program, certain grant program resources, the extended day childcare program, and other such restricted resources.

Debt Service Funds - to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest, and related debt issuance costs.

Capital Projects Funds - to account for financial resources generated from allocations of state revenues that are to be used for educational capital outlay needs, including new construction, renovation and remodeling projects.

Internal Service Funds - to account for the District’s limited self-insurance programs and printing service operations.

Fiduciary Funds – To account for the Foundation’s custodial funds which are fiduciary in nature and are used to account for assets associated with certain scholarships help for others and for funds held for the schools and district.

When both restricted and unrestricted resources are available for use, it is the District’s policy to use restricted resources first, and then unrestricted resources as they are needed.

Budgetary Information

The Board follows procedures established by State statutes and State Board of Education rules in establishing budget balances for governmental funds as described below:

- Annually, budgets are prepared, public hearings are held, and original budgets are adopted for all governmental fund types in accordance with procedures and time intervals prescribed by State Statutes and State Board of Education rules.
- Appropriations are controlled at the function level (e.g., instruction, pupil personnel services, and school administration) and may be amended by resolution at any Board meeting prior to the due date for the annual financial report.
- Budgets are prepared using the same modified accrual basis as is used to account for governmental funds.
- Budgetary information is integrated into the accounting system and, to facilitate budget control, budget balances are encumbered when purchase orders are issued. Appropriations lapse at fiscal year-end and encumbrances outstanding are honored from the subsequent year’s appropriations.
- The reported budgetary data consists of the original budget as well as the final appropriated budget after amendments are approved by the Board.

Cash and Cash Equivalents

Cash deposits are held in banks that qualify as public depositories under Florida law. All deposits are insured by Federal depository insurance and/or collateralized with securities held in Florida’s multiple financial institution collateral pool required by Sections 280.07 and 280.08, Florida Statutes. For the Internal Service Funds, the statement of cash flows considers cash as those accounts used as demand deposit accounts.

Cash balances from all funds are combined and invested to the extent available. Earnings are allocated monthly to each fund based on a rolling 2-month average balance of cash and investments.

Investments and Restricted Investments

Investments consist of amounts placed with various intergovernmental investment pools which hold a majority of U.S. government securities, municipal securities and repurchase agreements. The investment earnings are allocated to each fund based on a rolling two-month average investment balance in that fund. Investments also consist of the State of Florida’s Special Purpose Investment Account (SPIA) authorized in Section 17.61(1), Florida Statutes, Florida PRIME, Florida Public Assets for Liquidity Management (FL PALM), formerly known as the Florida Education Investment Trust Fund, corporate bonds, municipal bonds, commercial paper, and United States instrumentality securities. The District’s investment in SPIA is part of an investment pool managed by the Florida Department of Treasury, where the District

ORANGE COUNTY PUBLIC SCHOOLS
NOTES TO BASIC FINANCIAL STATEMENTS

owns a share of the pool, not the underlying shares of the assets in the pool. The District relies on policies developed by the State Treasury for managing interest and credit risk for this external investment pool.

Investments are valued at fair value, amortized cost, or net asset value, as applicable. The types and amounts of investments held at fiscal year-end are described in a subsequent note on investments.

Restricted investments consist of \$50,289,000 restricted for the repayment of certificates of participation principal and interest, and \$3,978,013 pledged to cover certain workers compensation claims.

Inventories

Inventories consist of expendable supplies held for consumption in the course of District operations. Transportation, custodial, and school supply inventories are stated at cost on a weighted average basis. Food service inventories are stated at cost on the last invoice basis, which approximates the first-in, first-out basis, except that United States Department of Agriculture donated foods are stated at their fair value as determined at the time of donation to the District's food service program by the Florida Department of Agriculture and Consumer Services, Bureau of Food Distribution. The costs of inventories are recorded as expenditures when used rather than purchased.

Capital Assets and Depreciation

Expenditures for capital assets acquired or constructed for general District purposes are reported in the governmental fund that financed the acquisition or construction. The capital assets acquired are reported at cost in the government-wide statement of net position, but are not reported in the governmental fund financial statements. Capital assets are defined by the District as those costing more than \$1,000 for furniture, fixtures and equipment; motor vehicles; audio visual materials; computer software; \$50,000 for improvements other than buildings; \$1,000,000 for lease assets; buildings and fixed equipment; and construction in progress and which have an estimated life of one or more years. All land purchases are capital assets regardless of cost. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated assets are recorded at acquisition value at the date of donation.

The costs of normal maintenance and repairs that do not add to the values of the assets or materially extend assets lives are not capitalized and are expensed as incurred. Interest costs incurred during construction of capital assets are not considered material and are not capitalized as part of the cost of construction.

Capital assets of the primary government, excluding land and construction in progress, are depreciated/amortized using the straight-line method over the following estimated useful lives:

<u>Description</u>	<u>Estimated Lives</u>
Improvements other than buildings	15 years
Buildings and fixed equipment	40 years
Furniture, fixtures, and equipment	5-15 years
Motor Vehicles	5-10 years
Lease Assets	3-10 years
Computer software	5 years

Current-year information relative to changes in capital assets is described in a subsequent note.

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial net position reports a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net assets that applies to future periods, and therefore, will not be recognized as an outflow of resources (expense/expenditure) until that time. The District has four items that qualify for reporting in this category. The deferred outflows of resources related to pension, OPEB and the fair value of derivative instruments are discussed in subsequent notes. A deferred amount on refunding results from the difference in the carrying value of the refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

In addition to liabilities, the statement of financial net position reports a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net assets that applies to future periods, and therefore, will not be recognized as an inflow of resources (revenue) until that time. The governmental funds report unavailable revenues, which arise only under modified accrual basis of accounting. These amounts are deferred and recognized as inflow of resources in the period that the amounts become available. The governmental activities report deferred inflows related to pension and OPEB, which are discussed in subsequent notes.

Unearned Revenue

Unearned revenue consists primarily of health insurance premiums collected from employees during the fiscal year for the coverage period extending through the plan year end of September 30.

Long-Term Liabilities

Long-term obligations that will be financed from resources to be received in the future by governmental funds are reported as liabilities in the government-wide statement of net position. Debt premiums and discounts, as well as deferred amounts on refunding, are deferred and amortized over the life of the debt using the effective interest method. Debt is reported net of the applicable bond premium or discount.

In the governmental fund financial statements, bonds and other long-term obligations are not recognized as liabilities until due. Governmental fund types recognize debt premiums and discounts, as well as issuance costs and deferred amounts on refunding, during the current period. The face amount of debt issued is reported as other financing source while discounts on debt issuances and deferred amounts on refunding are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

In the government-wide financial statements, compensated absences (i.e., paid absences for employee vacation leave and sick leave) are accrued as liabilities to the extent that it is probable that the benefits will result in termination payments. A liability is reported in the governmental fund financial statements only for the portion due and payable at year-end.

OPEB is reported in the government-wide financial statements. The District subsidizes the premium rates paid by Non-Medicare eligible retirees by allowing them to participate in the health plan at the blended group premium rates for both active and retired employees. OPEB is recorded by the District for the implicit subsidy for Non-Medicare eligible retirees because, on an actuarial basis, their current and future claims are expected to result in higher costs to the District than those of active employees. The District funds OPEB on a pay-as-you-go basis.

ORANGE COUNTY PUBLIC SCHOOLS
NOTES TO BASIC FINANCIAL STATEMENTS
June 30, 2022

The District makes healthcare available but no longer pays any portion of the healthcare benefits for Medicare eligible retirees. As a result, no health care experience for this group, whether favorable or unfavorable, would reflect on the cost of insurance to the District. Additional information on OPEB is described in a subsequent note.

In the government-wide statement of net position, pension liabilities are recognized for the District's proportionate share of each pension plan's net pension liability. For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pension, and pension expense, information about the fiduciary net position of the Florida Retirement System (FRS) defined benefit plan and the Health Insurance Subsidy (HIS) defined benefit plan and additions to/deductions from the FRS's and the HIS's fiduciary net position have been determined on the same basis as they are reported by the FRS and HIS plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with benefit terms. Investments are reported at fair value.

Changes in long-term debt for the current year are reported in a subsequent note.

Fund Balance Flow Assumptions

Sometimes the District will fund outlays for a particular purpose from both restricted and unrestricted sources (the total of restricted, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, assigned, and unassigned fund balance in the governmental fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the District's procedure to consider restricted fund balance to have been depleted before using any of the components of unassigned fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, assigned fund balance is depleted first, followed by unassigned fund balance.

Fund Balance Policies

Fund balance of governmental funds is reported in various categories based on the nature of any limitations requiring the use of resources for specific purposes. The government itself can establish limitations on the use of resources through either a commitment (committed fund balance) or an assignment (assigned fund balance). The Board does not have a policy regarding the commitment or assignment of fund balances; however, by resolution, the Board has given the ability to assign fund balance to the Superintendent and the Chief Financial Officer. The District does not have commitments imposed by formal action of its highest level of decision-making authority and, as such, the District does not report any committed fund balance.

Amounts in the assigned fund balance classification are intended to be used by the government for specific purposes. The District also assigns fund balance when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year's appropriated budget.

State Revenue Sources

Revenues from State sources for current operations are primarily from the Florida Education Finance Program administered by the Florida Department of Education (the Department) under the provisions of Section 1011.62, Florida Statutes. In accordance with this law, the District determines and reports the number of full-time equivalent (FTE) students and related data to the Department. The Department performs certain edit checks on the reported number of FTE and related data, and calculates the allocation of funds to the District. The District is permitted to amend its original reporting for a period of 5 months following the date of the original reporting. Such amendments may impact funding allocations for subsequent years. The Department may also adjust subsequent fiscal period allocations based

ORANGE COUNTY PUBLIC SCHOOLS
NOTES TO BASIC FINANCIAL STATEMENTS
June 30, 2022

upon an audit of the District's compliance in determining and reporting FTE and related data. Normally, such adjustments are treated as reductions or additions of revenue in the year when the adjustments are made.

The State of Florida (the State) provides financial assistance to administer certain categorical educational programs. State Board of Education rules require that revenue earmarked for certain programs be expended only for the program that the money is provided, and require that the money not expended as of the close of the fiscal year be carried forward into the following year to be expended for the same categorical educational programs. The Department generally requires that categorical educational program revenues be accounted for in the General Fund. A portion of the fund balance of the General Fund is restricted in the governmental funds' financial statements for the balance of categorical educational program resources.

The State allocates gross receipts taxes, generally known as Public Education Capital Outlay money and School Hardening grants, to the District on an annual basis. The District is authorized to expend these funds only upon applying for and receiving an encumbrance authorization from the Department.

A schedule of revenue from State sources for the current year is presented in a subsequent note.

District Property Taxes

The Board is authorized by State law to levy property taxes for district school operations, capital improvements, and debt service. Property taxes consist of ad valorem taxes on real and personal property within the District. The Orange County Property Appraiser determines the real and personal property values within the District. The Orange County Tax Collector then collects the taxes and remits them to the District.

The Board adopted the fiscal year 2021-22 tax levy on September 14, 2021. Property values are assessed as of January 1 each year. Tax bills are mailed in October and taxes are payable between November 1 of the year assessed and March 31 of the following year at discounts of up to 4% for early payment.

Taxes become a lien on the property on January 1 and are delinquent on April 1 of the year following the year of assessment. State law provides for enforcement of collection of personal property taxes by seizure of the property to satisfy unpaid taxes, and for enforcement of collection of real property taxes by the sale of interest-bearing tax certificates to satisfy unpaid taxes. The procedures result in the collection of essentially all taxes prior to June 30 of the year following the year of assessment.

Property tax revenues are recognized in the government-wide financial statements when the Board adopts the tax levy. Property tax revenues are recognized in the governmental fund financial statements when the District receives taxes, except the revenue that is accrued for taxes collected by the Orange County Tax Collector at fiscal year-end but not yet remitted to the District. Because any delinquent taxes collected after June 30 would not be material, delinquent taxes receivable are not accrued and no delinquent tax revenue deferral is recorded.

Millages and taxes levied for the current year are presented in a subsequent note.

Federal Revenue Sources

The District receives Federal awards for the enhancement of various educational programs. Federal awards are generally received based on applications submitted to, and approved by, various granting agencies. For Federal awards for which a claim to these grant proceeds is based on incurring eligible expenditures, revenue is recognized to the extent that eligible expenditures have been incurred.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the financial statement date and the reported amounts of revenues and expenses or expenditures during the reporting period. Actual results could differ from those estimates.

Impact of Recently Issued Accounting Principles

The GASB issued Statement No. 87, *Leases*. This Statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities. This Statement is effective for reporting periods beginning after December 15, 2020. The District has implemented this Statement for fiscal year 2022, the effect of which was immaterial.

Recently Issued Accounting Pronouncements with Potential Future Impact-Not Yet Adopted

The GASB issued Statement No. 96, *Subscription-Based Information Technology Arrangements*. This Statement provides guidance on the accounting and financial reporting for subscription-based information technology arrangements (SBITAs) for government end users (governments). This Statement (1) defines a SBITA; (2) establishes that a SBITA results in a right-to-use subscription asset-intangible asset-and a corresponding subscription liability; (3) provides the capitalization criteria for outlays other than subscription payments, including implementation costs of a SBITA; and (4) requires note disclosures regarding a SBITA. To the extent relevant, the standards for SBITAs are based on the standards established in Statement No. 87, *Leases*, as amended. The requirements of this Statement will take effect for financial statements starting with the fiscal year that ends June 30, 2023. Management is currently evaluating the impact of the adoption of this Statement on the District's financial statements.

The GASB issued Statement No. 101, *Compensated Absences*. This Statement requires that liabilities for compensated absences be recognized for (1) leave that has not been used and (2) leave that has been used but not yet paid in cash or settled through noncash means. A liability should be recognized for leave that has not been used if (a) the leave is attributable to services already rendered, (b) the leave accumulates, and (c) the leave is more likely than not to be used for time off or otherwise paid in cash or settled through noncash means. Liabilities for certain types of compensated absences—including parental leave, military leave, and jury duty leave—are not be recognized until the leave commences. The Statement establishes guidance for measuring a liability for leave that has not been used, generally using an employee's pay rate as of the date of the financial statements. The requirements of this Statement are effective for fiscal years beginning after December 15, 2023, and all reporting periods thereafter. Management is currently evaluating the impact of the adoption of this Statement on the District's financial statements.

2. Deposits and Investments

The District's investments at June 30, 2022, are reported as follows:

Investments measured at fair value	Fair Value Measurements			
	Value	Level 1	Level 2	Level 3
U.S. Government Agencies	\$ 430,615,236	\$ -	\$ 430,615,236	\$ -
Municipal bonds	15,407,471	-	15,407,471	-
Total investments measured at fair value	<u>446,022,707</u>	<u>-</u>	<u>446,022,707</u>	<u>-</u>
Investments measured at net asset value (NAV):

Commercial Paper	26,080			
Total investments measured at amortized cost	<u>1,100,892,060</u>			
Total Investments, Primary Government	<u>\$ 2,152,082,968</u>			

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets, level 2 inputs are significant other observable inputs, and level 3 inputs are significant unobservable inputs. The District's recurring fair value measurements are valued using quoted prices for similar assets or liabilities in active markets (level 2 inputs).

Certain investments are measured at fair value using the net asset value per share (or its equivalent) practical expedient or amortized cost, which approximates fair value. These amounts have not been classified in the fair value hierarchy. The District invests in these types of investments to obtain competitive market returns while ensuring the safety and liquidity of the portfolio. These types of investments may be redeemed without advance notice and there are no unfunded commitments for further investment. There are currently no limitations as to the frequency of redemptions; however, Florida PRIME has the ability to impose restrictions on withdrawals should a material event occur. Detailed information on the withdrawal restrictions that may be imposed and Florida PRIME's responsibilities should such an event occur is described in Section 218.409(8)(a), Florida Statutes.

Interest Rate Risk

District policies limit the maturity of investments to a 5-year weighted average life as a means of limiting its exposure to fair value losses arising from rising interest rates. Also, at least 3 months of average disbursements should be invested in highly liquid funds with a maturity range of 0-90 days.

ORANGE COUNTY PUBLIC SCHOOLS
NOTES TO BASIC FINANCIAL STATEMENTS

The District has \$446,022,707 in obligations of the United States Government Sponsored Agencies/Federal Instrumentalities and Municipal Bonds. These securities include embedded options to call the entire security or a portion thereof, at the option of the issuer; or, depending on market conditions, the issuer may decide to leave the security intact, at the stated interest rate, until final maturity. These securities have various call dates with final maturity dates being January 2037.

At June 30, 2022, the District's investments had the following maturities:

For Florida PRIME, with regard to redemption gates, Section 218.409(8)(a), Florida Statutes, states, "The principal, and any part thereof, of each account constituting the trust fund is subject to payment at any time from the moneys in the trust fund. However, the executive director may, in good faith, on the occurrence of an event that has a material impact on liquidity or operations of the trust fund, for 48 hours limit contributions to or withdrawals from the trust fund to ensure that the board [State Board of Administration] can invest moneys entrusted to it in exercising its fiduciary responsibility. Such action must be immediately disclosed to all participants, the trustees, the Joint Legislative Auditing Committee, and the Investment Advisory Council. The trustees shall convene an emergency meeting as soon as practicable from the time the executive director has instituted such measures and review the necessity of those measures. If the trustees are unable to convene an emergency meeting before the expiration of the 48-hour moratorium on contributions and withdrawals, the moratorium may be extended by the executive director until the trustees are able to meet to review the necessity for the moratorium. If the trustees agree with such measures, the trustees shall vote to continue the measures for up to an additional 15 days. The trustees must convene and vote to continue any such measures before the expiration of the time limit set, but in no case may the time limit set by the trustees exceed 15 days." As of June 30, 2022, there were no redemption fees, maximum transaction amounts, or any other requirements that serve to limit a participant's daily access to 100 percent of their account value.

The District does not have any outstanding or unused lines of credit. The District's certificates of participation and certificates of participation from direct borrowings contain a provision that upon an event of default or the termination of the agreement prior to the payment of all scheduled payments, the District shall immediately surrender and deliver possession of all facilities financed under the Master agreement.

6. Derivative Instruments

Hedged Debt and Hedging Derivative Instrument Payments

As of June 30, 2022, aggregate debt service requirements of the District's debt (fixed-rate and variable-rate) and net receipts/payments on associated hedging derivative instruments are provided on the following tables. These amounts assume that current interest rates on variable-rate bonds and the current reference rates of hedging derivative instruments will remain the same for their term. As these rates vary, interest payments on variable-rate bonds and net receipts/payments on the hedging derivative instruments will vary.

Series 2008E COPs Swap Agreement - Swap Payments and Associated Debt. Assuming interest rates remain the same as at June 30, 2022, annual debt service requirements on the Series 2008E COPs and the interest rate swap would be as follows:

Fiscal Year Ending June 30,	Principal	Interest	Interest Rate Swaps, Net	Total
2023	\$ 12,090,000	\$ 13,713	\$ 41,755	\$ 12,145,468

6. Derivative Instruments (continued)

The fair value balances and notional amounts of derivative instruments outstanding at June 30, 2022, and the changes in fair value of such derivative instruments for the year then ended as reported in the 2022 financial statements, are as follows:

Governmental Activities Hedging Derivatives:	Change in Fair Value		Classification	Fair Value at June 30, 2022	
	Classification	Amount		Amount	Notional
2008E Pay-fixed Interest Rate Swap	Deferred Outflow of Resources	\$ 489,785	Liability	\$ (226,136)	\$ 12,090,000
Total Hedging Derivative Instruments				<u>\$ (226,136)</u>	

The fair values of the hedging derivatives take into consideration Level 2 measurement inputs from the prevailing interest rate environment and the specific terms and conditions of each swap. All fair values were estimated using the zero-coupon discounting method. This method calculates the future payments required by the swap, assuming that the current forward rates implied by the yield curve are the market's best estimate of future spot interest rates. These payments are then discounted using the spot rates implied by the current yield curve for a hypothetical zero-coupon rate bond due on the date of each future net settlement payment on the swaps.

Objective and Terms of Derivative Instruments

The following table displays the objective and terms of the District's derivative instruments outstanding at June 30, 2022, along with the credit rating of the associated counterparty:

Governmental Activities Hedging Derivatives:	Objective	Notional	Effective Date	Maturity Date	Amount of Cash Received	Terms	Counterparty	Counterparty Credit Rating
	Hedge changes in cash flows on the 2008E					Pay 5.112% receive SIFMA	UBS AG	
2008E Interest Rate Swap	Certificates	\$ 12,090,000	8/1/2007	8/1/2022	N/A	Swap Index	Stamford Branch	Aa3,A+,AA-

Credit Risk. The District is exposed to credit risk on hedging derivative instruments. The swap's fair value represented the District's credit exposure to the counterparty. Should the counterparty to this transaction fail to perform according to the terms of the swap contract, the District is left with variable rate bonds. As of June 30, 2022, the swap counterparties' credit ratings are noted in the above table.

It is the District's policy to enter into netting arrangements whenever it has entered into more than one derivative instrument transaction with a counterparty. Under the terms of these arrangements, should one party become insolvent or otherwise default on its obligations, close-out netting provisions permit the non-defaulting party to accelerate and terminate all outstanding transactions and net the transactions' fair values so that a single sum will be owed by, or owed to, the non-defaulting party.

The District has no hedging derivative instruments in asset positions at June 30, 2022.

ORANGE COUNTY PUBLIC SCHOOLS
NOTES TO BASIC FINANCIAL STATEMENTS
June 30, 2022

Interest Rate Risk. The District is exposed to interest rate risk on its interest rate swap. As the SIFMA swap index decreases, the District's net payment on the swap increases, which is offset by the variable rate paid on the hedged debt.

Basis Risk. The District is exposed to basis risk should the variable rate it receives under the agreement be different than the rate it pays on its COPs. Under the requirements of the swap, the District receives a variable payment based on the SIFMA index from the counterparty. The 2008E COPs are currently priced in a daily mode and the SIFMA index reflects weekly interest rates.

Termination risk. The District or its counterparties may terminate a derivative instrument if the other party fails to perform under the terms of the contract including if either parties credit rating falls below designated levels.

7. Defeased Debt

On July 16, 2021, the District issued COPs Series 2021B to refund COPs Series 2015C. The COPs Series 2021B of \$156,230,000 (par value) with an interest rate of 2.07% was issued to refund COPs Series 2015C with interest rates of 5.00% and a par value of \$132,340,000. The refunding of the 2015C Series resulted in an economic savings (difference between the present value of the debt service payments on the old and new debt) of \$7,987,426 and a decrease in the District's total debt service requirement by \$9,168,063. The COPs final maturity was not extended. After paying issuance cost of \$271,920, the net proceeds of the COPS were \$158,990,872. The net proceeds from the issuance of the COPs, along with \$3,032,792 of the District's funds, were used to provide funds for the purpose of funding an escrow deposit, the proceeds of which were applied to fully pay on July 16, 2021, the COPs Series 2015C. As a result, \$132,340,000 of the 2015C certificates are considered to be defeased in-substance and the liability of these certificates has been removed from the District's government-wide financial statements in the current fiscal year.

On July 16, 2021, the District issued COPs Series 2021C to refund a portion of COPs Series 2015D. The COPs Series 2021C of \$83,555,000 (par value) with an interest rate of 2.15% was issued to refund COPs Series 2015D with interest rates of 5.00% and a par value of \$70,780,000. The refunding of the 2015D Series resulted in an economic savings (difference between the present value of the debt service payments on the old and new debt) of \$2,866,693 and a decrease in the District's total debt service requirement by \$3,237,227. The COPs final maturity was not extended. After paying issuance cost of \$143,229, the net proceeds of the COPS were \$85,033,812. The net proceeds from the issuance of the COPs, along with \$1,622,042 of the District's funds, were used to provide funds for the purpose of funding an escrow deposit, the proceeds of which were applied to fully pay on July 16, 2021, the COPs Series 2015D. As a result, \$70,780,000 of the 2015D certificates are considered to be defeased in-substance and the liability of these certificates has been removed from the District's government-wide financial statements in the current fiscal year.

9. Fund Balance Reporting

GAAP provides for two major types of fund balances for governmental funds, which are nonspendable and spendable. Nonspendable fund balances are balances that cannot be spent because they are not expected to be converted to cash or they are legally or contractually required to remain intact. Examples of this classification are prepaid items, inventories, and principal (corpus) of an endowment fund. The District reports its inventories and prepaid items as nonspendable and does not have any nonspendable funds related to endowments.

In addition to the nonspendable fund balance, GAAP provides a hierarchy of spendable fund balances, based on spending constraints.

Restricted - Fund balances that are constrained by external parties, constitutional provisions, or enabling legislation.

Committed - Fund balances that contain self-imposed constraints of the government from its highest level of decision making authority such as school board resolutions.

Assigned - Fund balances that contain self-imposed constraints of the government to be used for a particular purpose.

Unassigned – Fund balance of the general fund that does not have a constraint for any particular purpose. General fund is the only fund that reports a positive unassigned fund balance amount.

The District has classified its fund balances with the following hierarchy:

Nonspendable: The District has inventories totaling \$2,779,314 that are classified as nonspendable.

Spendable: The District has classified the spendable fund balances as *Restricted, Assigned and Unassigned* and considered each to have been spent when expenditures are incurred. The District does not have a policy regarding the commitment or assignment of fund balances; however, by resolution, the Board has given the ability to assign fund balance to the Superintendent and the Chief Financial Officer. The District does not report any *Committed* fund balance. When restricted, assigned, and unassigned funds are available for use, the District's procedures are to use the restricted funds first, followed by the assigned funds and then the unassigned funds last.

Restricted for State Categorical Programs, State Grants, Food Service, Debt Service and Capital Projects:

Federal Laws, Florida Statutes and local ordinances require that certain revenues be specifically designated for the purposes of state categorical programs, food service, debt service, and capital projects. These funds have been included in the restricted category of fund balance. The restricted fund balances totaled \$2,124,368,964 and represented \$7,321,745 in State categorical programs, \$25,688,651 in Post-Secondary schools rollover budget, \$5,687,900 in State Grants, \$81,997,948 in food service, \$17,034,209 in student activities, \$147,821,252 in debt service and \$1,838,817,259 in capital projects.

Assigned for School Operations and Other Purposes:

The assigned fund balances totaled \$262,027,004. For the General Fund, the Chief Financial Officer of the Board has assigned the OPEB liability of \$48,695,858; Board Projects of \$143,230,945; and K-12 School Rollover Budgets of \$28,234,196. Also for the General Fund, the District reports as assigned outstanding purchase obligations of \$5,582,471 that have not been previously reported as restricted and \$25,241,092 needed to eliminate expected expenditures over expected revenues in the subsequent year budget approved by the Board. In addition, \$11,042,442 of positive fund

balance in non-General Funds that has not been reported as nonspendable or restricted is reported as assigned fund balance.

Unassigned:

The District has not established a contingency reserve or "Rainy Day Fund". Instead the Board has approved in the budget to set aside 3 percent of recurring budgeted revenues at the beginning of each year to cover unforeseen events (e.g., revenue shortfalls, student enrollment under projections, etc.). At the end of the fiscal year, the unassigned general fund balance was \$132,604,286 or 6.5 percent of general fund total budgeted revenues for fiscal year 2022.

13. State Retirement Programs

Florida Retirement System. The Florida Retirement System (FRS) was created in Chapter 121, Florida Statutes, to provide a defined benefit pension plan for participating public employees. The FRS was amended in 1998 to add the Deferred Retirement Option Program (DROP) under the defined benefit plan and amended in 2000 to provide a defined contribution plan alternative to the defined benefit plan for FRS members effective July 1, 2002. This integrated defined contribution pension plan is the FRS Investment Plan. Chapter 112, Florida Statutes, established the Retiree Health Insurance Subsidy (HIS) Program, a cost sharing multiple-employer defined benefit pension plan, to assist retired members of any state- administered retirement system in paying the costs of health insurance.

Essentially all regular employees of the District are eligible to enroll as members of the State-administered FRS. Provisions relating to the FRS are established by Chapters 121 and 122, Florida Statutes; Chapter 112, Part IV, Florida Statutes; Chapter 238, Florida Statutes; and FRS Rules, Chapter 60S, Florida Administrative Code; wherein eligibility, contributions, and benefits are defined and described in detail. Such provisions may be amended at any time by further action from the Florida Legislature. The FRS is a single retirement system administered by the Florida Department of Management Services, Division of Retirement, and consists of the two cost-sharing, multiple-employer defined benefit plans and other nonintegrated programs. A comprehensive annual financial report of the FRS, which includes its financial statements, required supplementary information, actuarial report, and other relevant information, is available from the Florida Department of Management Services' Web site (www.dms.myflorida.com).

The District's FRS and HIS pension expense totaled \$32,301,346 for the fiscal year ended June 30, 2022.

FRS Pension Plan

Plan Description. The FRS Pension Plan (Plan) is a cost-sharing multiple-employer defined benefit pension plan, with a DROP for eligible employees. The general classes of membership are as follows:

- *Regular*– Members of the FRS who do not qualify for membership in the other classes.
- *Elected County Officers*– Members who hold specified elective offices in local government.
- *Senior Management Service* – Members in senior management level positions.
- *Special Risk*– Members who are employed as law enforcement officers and meet the criteria to qualify for this class.

Employees enrolled in the Plan prior to July 1, 2011, vest at 6 years of creditable service and employees enrolled in the Plan on or after July 1, 2011, vest at 8 years of creditable service. All vested members, enrolled prior to July 1, 2011, are eligible for normal retirement benefits at age 62 or at any age after 30 years of service, except for members classified as special risk who are eligible for normal retirement benefits at age 55 or at any age after 25 years of service. All members enrolled in the Plan on or after July 1, 2011, once vested, are eligible for normal retirement benefits at age 65 or any time after 33 years of creditable service except for members classified as special risk who are eligible for normal retirement benefits at age 60 or at any age after 30 years of service. Employees enrolled in the Plan may include up to 4 years of credit for military service toward creditable service. The Plan also includes an early retirement provision; however, there is a benefit reduction for each year a member retires before his or her normal retirement date. The Plan provides retirement, disability, death benefits, and annual cost-of-living adjustments to eligible participants.

DROP, subject to provisions of Section 121.091, Florida Statutes, permits employees eligible for normal retirement under the Plan to defer receipt of monthly benefit payments while continuing employment with an FRS participating employer. An employee may participate in DROP for a period not to exceed 60 months after electing to participate,

**ORANGE COUNTY PUBLIC SCHOOLS
NOTES TO BASIC FINANCIAL STATEMENTS
June 30, 2022**

except that certain instructional personnel may participate for up to 96 months. During the period of DROP participation, deferred monthly benefits are held in the FRS Trust Fund and accrue interest. The net pension liability does not include amounts for DROP participants, as these members are considered retired and are not accruing additional pension benefits.

Benefits Provided. Benefits under the Plan are computed on the basis of age and/or years of service, average final compensation, and service credit. Credit for each year of service is expressed as a percentage of the average final compensation. For members initially enrolled before July 1, 2011, the average final compensation is the average of the five highest fiscal years' earnings; for members initially enrolled on or after July 1, 2011, the average final compensation is the average of the 8 highest fiscal years' earnings. The total percentage value of the benefit received is determined by calculating the total value of all service, which is based on the retirement class to which the member belonged when the service credit was earned. Members are eligible for in-line-of-duty or regular disability and survivors' benefits. The following chart shows the percentage value for each year of service credit earned:

<u>Class, Initial Enrollment, and Retirement Age/Years of Service</u>	<u>% Value</u>
<i>Regular Class members initially enrolled before July 1, 2011</i>	
Retirement up to age 62 or up to 30 years of service	1.60
Retirement at age 63 or with 31 years of service	1.63
Retirement at age 64 or with 32 years of service	1.65
Retirement at age 65 or with 33 or more years of service	1.68
<i>Regular Class members initially enrolled on or after July 1, 2011</i>	
Retirement up to age 65 or up to 33 years of service	1.60
Retirement at age 66 or with 34 years of service	1.63
Retirement at age 67 or with 35 years of service	1.65
Retirement at age 68 or with 36 or more years of service	1.68
<i>Elected County Officers</i>	3.00
<i>Senior Management Service Class</i>	2.00
<i>Special Risk</i>	3.00

As provided in Section 121.101, Florida Statutes, if the member is initially enrolled in the FRS before July 1, 2011, and all service credit was accrued before July 1, 2011, the annual cost-of-living adjustment is 3 percent per year. If the member is initially enrolled before July 1, 2011, and has service credit on or after July 1, 2011, there is an individually calculated cost-of-living adjustment. The annual cost-of-living adjustment is a proportion of 3 percent determined by dividing the sum of the pre-July 2011 service credit by the total service credit at retirement multiplied by 3 percent. Plan members initially enrolled on or after July 1, 2011 will not have a cost-of-living adjustment after retirement.

(A) Employer rates include the post-employment health insurance supplement of 1.66% and .06% for administrative costs of the Public Employee Optional Retirement Program.

(B) Contribution rates are dependent upon retirement class in which reemployed.

The District's contributions to the Plan totaled \$103,025,247 for the fiscal year ended June 30, 2022.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions. At June 30, 2022, the District reported a liability of \$177,733,377 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2021, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2021. The District's proportionate share of the net pension liability was based on the District's 2020-21 fiscal year contributions relative to the 2020-21 fiscal year contributions of all participating members. At June 30, 2021, the District's proportionate share was 2.35 percent, which was an increase of 0.08 percent from its proportionate share measured as of June 30, 2020.

Actuarial Assumptions. The total pension liability in the July 1, 2021 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.40 percent
Salary Increases	3.25 percent, average, including inflation
Investment rate of return	6.80 percent, net of pension plan investment expense, including inflation

Mortality rates were based on the PUB2010 base table which varies by member category and sex, projected generationally with Scale MP-2018.

The actuarial assumptions used in the July 1, 2021, valuation were based on the results of an actuarial experience study for the period July 1, 2013, through June 30, 2018.

The long-term expected rate of return on pension plan investments was not based on historical returns, but instead is based on a forward-looking capital market economic model. The allocation policy's description of each asset class was used to map the target allocation to the asset classes shown below. Each asset class assumption is based on a consistent set of underlying assumptions, and includes an adjustment for the inflation assumption. The target allocation and best estimates of arithmetic and geometric real rates of return for each major asset class are summarized in the following table:

Discount Rate. The discount rate used to measure the total pension liability was 6.8 percent. The Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the discount rate for calculating the total pension liability is equal to the long-term expected rate of return.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate. The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 6.8 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (5.8 percent) or 1-percentage-point higher (7.8 percent) than the current rate:

	<u>1% Decrease (5.8%)</u>	<u>Current Discount Rate (6.8%)</u>	<u>1% Increase (7.8%)</u>

HIS Pension Plan

Plan Description. The HIS Pension Plan (HIS Plan) is a cost-sharing multiple-employer defined benefit pension plan established under section 112.363, Florida Statutes, and may be amended by the Florida Legislature at any time. The

ORANGE COUNTY PUBLIC SCHOOLS
NOTES TO BASIC FINANCIAL STATEMENTS

benefit is a monthly payment to assist retirees of State-administered retirement systems in paying their health insurance costs and is administered by the Division of Retirement within the Florida Department of Management Services.

Benefits Provided. For the fiscal year ended June 30, 2022, eligible retirees and beneficiaries received a monthly HIS payment of \$5 for each year of creditable service completed at the time of retirement, with a minimum HIS payment of \$30 and a maximum HIS payment of \$150 per month, pursuant to Section 112.363, Florida Statutes. To be eligible to receive a HIS Plan benefit, a retiree under a State-administered retirement system must provide proof of health insurance coverage, which may include Medicare.

Contributions. The HIS Plan is funded by required contributions from FRS participating employers as set by the Florida Legislature. Employer contributions are a percentage of gross compensation for all active FRS members. For the fiscal year ended June 30, 2022, the contribution rate was 1.66 percent of payroll pursuant to section 112.363, Florida Statutes. The District contributed 100 percent of its statutorily required contributions for the current and preceding 3 years. HIS Plan contributions are deposited in a separate trust fund from which payments are authorized. HIS Plan benefits are not guaranteed and are subject to annual legislative appropriation. In the event the legislative appropriation or available funds fail to provide full subsidy benefits to all participants, benefits may be reduced or canceled.

The District's contributions to the HIS Plan totaled \$19,296,022 for the fiscal year ended June 30, 2022.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions. At June 30, 2022, the District reported a net pension liability of \$381,575,244 for its proportionate share of the HIS Plan's net pension liability. The current portion of the net pension liability is the District's proportionate share of benefit payments expected to be paid within one year, net of the District's proportionate share of the pension plan's fiduciary net position available to pay that amount. The net pension liability was measured as of June 30, 2021, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2021. The District's proportionate share of the net pension liability was based on the District's 2020-21 fiscal year contributions relative to the total 2020-21 fiscal year contributions of all participating members. At June 30, 2021, the District's proportionate share was 3.11 percent, which was an decrease of 0.16 percent from its proportionate share measured as of June 30, 2020.

For the fiscal year ended June 30, 2022, the District recognized pension expense of \$28,256,963 related to the HIS Plan. In addition, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

The deferred outflows of resources related to pensions resulting from District contributions to the HIS Plan subsequent to the measurement date, totaling \$19,296,022, will be recognized as a reduction of the net pension liability in the fiscal year ended June 30, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

<u>Fiscal Year Ending June 30</u>	<u>Amount</u>

Thereafter	(129,044)
Total	\$ 22,776,667

Actuarial Assumptions. The actuarial assumptions that determined the total pension liability as of June 30, 2021, were based on certain results of an actuarial experience study of the FRS for the period July 1, 2013 – June 30, 2018.

Inflation	2.40 percent
Salary Increases	3.25 percent, average, including inflation
Municipal Bond Rate	2.16 percent

Mortality rates were based on the Generational PUB-2010 with Projection Scale MP-2018; details in valuation report.

Discount Rate. The discount rate used to measure the total pension liability was 2.16 percent, which is a decrease from 2.21 percent used at the preceding measurement date. In general, the discount rate for calculating the total pension liability is equal to the single rate equivalent to discounting at the long-term expected rate of return for benefit payments prior to the projected depletion date. Because the HIS benefit is essentially funded on a pay-as-you-go basis, the depletion date is considered to be immediate, and the single equivalent discount rate is equal to the municipal bond rate selected by the HIS Plan sponsor. The Bond Buyer General Obligation 20-Bond Municipal Bond Index was adopted as the applicable municipal bond index.

Defined Contribution Pension Plan

The District contributes to the FRS Investment Plan (Investment Plan), a defined contribution pension plan, for its eligible employees electing to participate in the Investment Plan. The Investment Plan is administered by the SBA, and is reported in the SBA's annual financial statements and in the State of Florida Comprehensive Annual Financial Report.

As provided in Section 121.4501, Florida Statutes, eligible FRS members may elect to participate in the Investment Plan in lieu of the FRS defined-benefit plan. District employees participating in DROP are not eligible to participate in the Investment Plan. Employer and employee contributions, including amounts contributed to individual members' accounts, are defined by law, but the ultimate benefit depends in part on the performance of investment funds. Benefit terms, including contribution requirements, for the Investment Plan are established and may be amended by the Florida Legislature. The Investment Plan is funded with the same employer and employee contribution rates that are based on salary and membership class (Regular Class, Senior Management, etc.) as the FRS defined benefit plan. Contributions are directed to individual member accounts, and the individual members

allocate contributions and account balances among various approved investment choices. Costs of administering the Investment Plan, including the FRS Financial Guidance Program, are funded through an employer contribution of 0.06 percent of payroll and the forfeited benefits of Investment Plan members. Allocations to the investment member's accounts during the 2021-22 fiscal year were as follows:

<u>Class</u>	<u>Percent of Gross Compensation</u>
FRS, Regular	10.82
FRS, Elected County Officers	51.42
FRS, Senior Management Service	29.01
FRS, Special Risk Regular	37.76

For all membership classes, employees are immediately vested in their own contributions and are vested after 1 year of service for employer contributions and investment earnings. If an accumulated benefit obligation for service credit originally earned under the FRS Pension Plan is transferred to the Investment Plan, the member must have the years of service required for FRS Pension Plan vesting (including the service credit represented by the transferred funds) to be vested for these funds and the earnings on the funds. Nonvested employer contributions are placed in a suspense account for up to 5 years. If the employee returns to FRS-covered employment within the 5 year period, the employee will regain control over their account. If the employee does not return within the 5 year period, the employee will forfeit the accumulated account balance. For the fiscal year ended June 30, 2022, the information for the amount of forfeitures was unavailable from the SBA; however, management believes that these amounts, if any, would be immaterial to the District.

After termination and applying to receive benefits, the member may rollover vested funds to another qualified plan, structure a periodic payment under the Investment Plan, receive a lump-sum distribution, leave the funds invested for future distribution, or any combination of these options. Disability coverage is provided; the member may either transfer the account balance to the FRS Pension Plan when approved for disability retirement to receive guaranteed lifetime monthly benefits under the FRS Pension Plan, or remain in the Investment Plan and rely upon that account balance for retirement income.

The District's Investment Plan pension expense totaled \$32,329,622 for the fiscal year ended June 30, 2022.

14. Other Postemployment Benefits

Plan Description. The other postemployment benefits plan is a single-employer defined benefit plan administered by the District. Pursuant to the provision of the Section 112.0801, Florida Statutes, employees who retire from the District, and eligible dependents, may continue to participate in the District's health and hospitalization plan for medical and prescription coverages. The postemployment healthcare and life insurance plan does not issue a stand-alone report, and is not included in the report of a public employee retirement system (PERS) or another entity.

Funding Policy. The District funds the postemployment benefit on a pay-as-you go basis. Contribution requirements of the plan members and the District are established and may be amended by the Board. Effective October 1, 2014, once the participant or spouse attains age 65, the District does not continue coverage. Postemployment healthcare and life insurance are optional benefits available through the District after retirement, but retirees must pay the full premium.

Total OPEB Liability. The District's total OPEB liability of \$48,695,858 was measured as of June 30, 2022 and was determined by an actuarial valuation as of June 30, 2022.

Actuarial Assumption and Other Inputs. The total OPEB liability in the June 30, 2022, actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Actuarial Cost Method	Entry Age Normal
Discount Rate	2.14% increasing to 3.54% as of the end of the measurement period
20-Year Municipal Bond Rate	3.54%
Salary Increases	4.0%
Inflation Rate	2.0%
Mortality Rates	2010 Teachers Retirees Headcount-Weighted Mortality , projected generationally with scale MP-2021
Healthcare Cost Trend Rate	5% decreasing to 4.5% as of the end of the measurement period

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment and termination, mortality, and the healthcare cost trends.

Projection of benefits for financial reporting purposes are based on the substantive plan provisions, as understood by the employer and participating members, and include the type of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employer and participating members. The actuarial methods and assumptions used include techniques that are designed to reduce the effect of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

16. Risk Management Programs

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District relies on sovereign immunity and therefore does not procure general liability or automobile insurance. Other lines of coverage are being provided on a self-insured basis subject to specified retentions. The District has contracted with claims administrators to administer these self-insurance programs, including the processing, investigating and payment of claims.

A liability was actuarially determined to cover estimated incurred but not reported insurance claims payable at June 30, 2022. Liabilities for incurred losses to be settled by fixed or reasonably determinable payments over a long period of time are reported at their present value using an investment yield rate of 1.5% as determined by a review of the District's interest rates received from intergovernmental pooled investment funds and government securities. These liabilities are \$14,462,889 at June 30, 2022. Settled claims resulting from the risks described above have not exceeded into the excess commercial insurance coverage in any of the past three fiscal years.

The District provides employee group health and life insurance. The group health plan is self-insured through the Employee Benefits Trust and life insurance is obtained through a commercial carrier. Under these plans, the Board contributes employee premiums as fringe benefits to employees. The employees pay a portion of the costs in the two premium group health plans while the District pays all of the employee costs in the two basic group health plans. Premiums for coverages provided for employee dependents and retirees and their dependents are paid in advance by the employee or retiree. These plans provide for maximum premiums based on the number of participants and individual or family coverages. The group health plan is administered by third-party administrators that are reimbursed by the District from a detail record of services provided. There is no stop loss protection on the group health plan. The District has different funding arrangements with each of the groups that reimburse the claims and healthcare expenses. The District reported an estimated unpaid claims liability of \$19,000,000 in the Internal Service Fund for the group health insurance program at June 30, 2022.

17. Litigation and Contingencies

The District is a defendant in numerous lawsuits as of June 30, 2022. It is the opinion of management, after giving consideration to the District’s related insurance coverage, as well as the Florida statutory limitations on governmental liabilities on uninsured risks, that the amount of loss resulting from litigation would not be material to the financial position of the District.

Amounts received or receivable from grantors are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by grantors cannot be determined at this time although the District expects such amounts, if any, to be immaterial.

During 2020 an outbreak of a novel strain of coronavirus (“COVID-19”) emerged globally. As a result of the spread of COVID-19, economic uncertainties have arisen that may impact the District’s operations for an indeterminable time period.

Note: Property Taxes become due and payable on November 1st of each year. A four percent (4%) discount is allowed if taxes are paid in November, with the discounts declining by one percent (1%) each month thereafter. Accordingly, taxes collected will never be 100% of the tax levy. Taxes become delinquent on April 1st of each year and tax certificates for the full amount of any unpaid taxes and assessments must be sold not later than June 1st of each year. Accordingly, the majority of taxes are collected in the fiscal year levied.

Report of Independent Auditor on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

The Honorable Members of the
School Board of Orange County Public Schools
Orlando, Florida

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of Orange County Public Schools, Florida (the “District”) as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the District’s basic financial statements, and have issued our report thereon dated December 9, 2022. Our report includes reference to other auditors who have audited the financial statements of the discretely presented component units and the portion of aggregate remaining fund information that represents the District’s School Internal Accounts and fiduciary funds, as described in our report on the District’s financial statements. This report does not include the results of the other auditors’ testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District’s internal control over financial reporting (“internal control”) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District’s internal control. Accordingly, we do not express an opinion on the effectiveness of the District’s internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity’s financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses and significant deficiencies may exist that have not been identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District’s financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**Report of Independent Accountant on Compliance
with Local Government Investment Policies**

The Honorable Members of the
School Board of Orange County Public Schools
Orlando, Florida

We have examined Orange County Public School, Florida's (the "District") compliance with the local government investment policy requirements of Section 218.415, *Florida Statutes*, during the year ended June 30, 2022. Management of the District is responsible for the District's compliance with the specified requirements. Our responsibility is to express an opinion on the District's compliance with the specified requirements based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether the District complied, in all material respects, with the specified requirements referenced above. An examination involves performing procedures to obtain evidence about whether the District complied with the specified requirements. The nature, timing and extent of the procedures selected depend on our judgement, including an assessment of the risks of material noncompliance, whether due to fraud or error. We believe that the evidence obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

We are required to be independent and to meet our other ethical responsibilities in accordance with relevant ethical requirements relating to the engagement.

Our examination does not provide a legal determination on the District's compliance with the specified requirements.

In our opinion, the District complied, in all material respects, with the local investment policy requirements of Section 218.415, *Florida Statutes*, during the year ended June 30, 2022.

The purpose of this report is to comply with the audit requirements of Section 218.415, *Florida Statutes*, and Rules of the Auditor General.
